“There is so much ability to make a contribution.”

Joan Unger is the Director of Operations at Alberta Innovates Bio Solutions. As a member of AI Bio’s executive team, Joan contributes to the development and implementation of the corporation’s goals. She leads the management of all corporate administrative services, including financial, legal, human resources, informational, grant and contractual needs.

Joan has over twenty-seven years of administrative experience with the government of Alberta. She worked with grants, contracts, finances and human resources within the agriculture and forestry sectors.
